Hog Roast Machine for Hire or Sale

Ideal for parties, fairs and pubs. Impress your guests with the Fabtech Hog Roast Machine - built to a superior standard.

Specification

Our machines are constructed from stainless steel and come with spit bar, spikes, clamps, two carving trays and all gas fittings ready to use.

- Designed to accommodate a 50 - 80kg hog with head on (cooking time approx. 5 hours)
- Built to a standard size of 1500L x 750W x 800D
- Carve directly from the machine – no fuss – no mess. Simply put the meat on the spit rests for a comfortable carving height. Then carve into the heated meat trays
- Feed from 40 - 150 guests from one machine (depending on size of pig)
- Optional extra: potato rack
- Ideal for both professional and personal use
- 2 Burners for even heat distribution – giving that perfect finish every time
- Gas – propane
- Electricity 240 or 12v – no need for electric sockets – cook anywhere
- Built to a standard wheeled machine or available on a trailer
- Easy to maintain and keep clean – rust free and durable
- Consistent results and user friendly.

Delivery Payment

We require cleared funds within 48 hours prior to delivery.
